

The 2021 ABC Annual Conference

The main purpose of the conference was to examine the best ways in which to use knowledge and innovation to boost women and youth employment as well as foster the adoption of new technologies during the fourth industrial revolution. The conference was also looking at the current position of Digital Finance Technology (DFS) in Tanzania so that all concerned stakeholders (Lawyers, lawmakers, Financial Institutions government, and regulatory authorities) are well acquainted with the concept of Digital Finance Technology and what it entails. Digital Financial Technology can potentially disrupt markets, commerce, and traditional financial institutions as we know them today if it is not well understood and managed. The conference was an avenue for the attendees to brainstorm with the relevant authorities and lawyers on how best technology (DFS, Blockchain etc.), innovation and Intellectual Property can be utilized by women and youth participation during the fourth industrial revolution.
